

Skate Wheel Telescopic Conveyor

Suzhou Zhisong Mould Co., Ltd

2023 Product Catalogue

Introduce

Skate wheel telescopic conveyot uses the inertia of height difference to realize the transmission of goods. It is widely used in warehousing, logistics, etc., and can unload goods efficiently.

The advantages of low investment cost and easy storage make it popular.

Rated load capacity: 60KG/m;

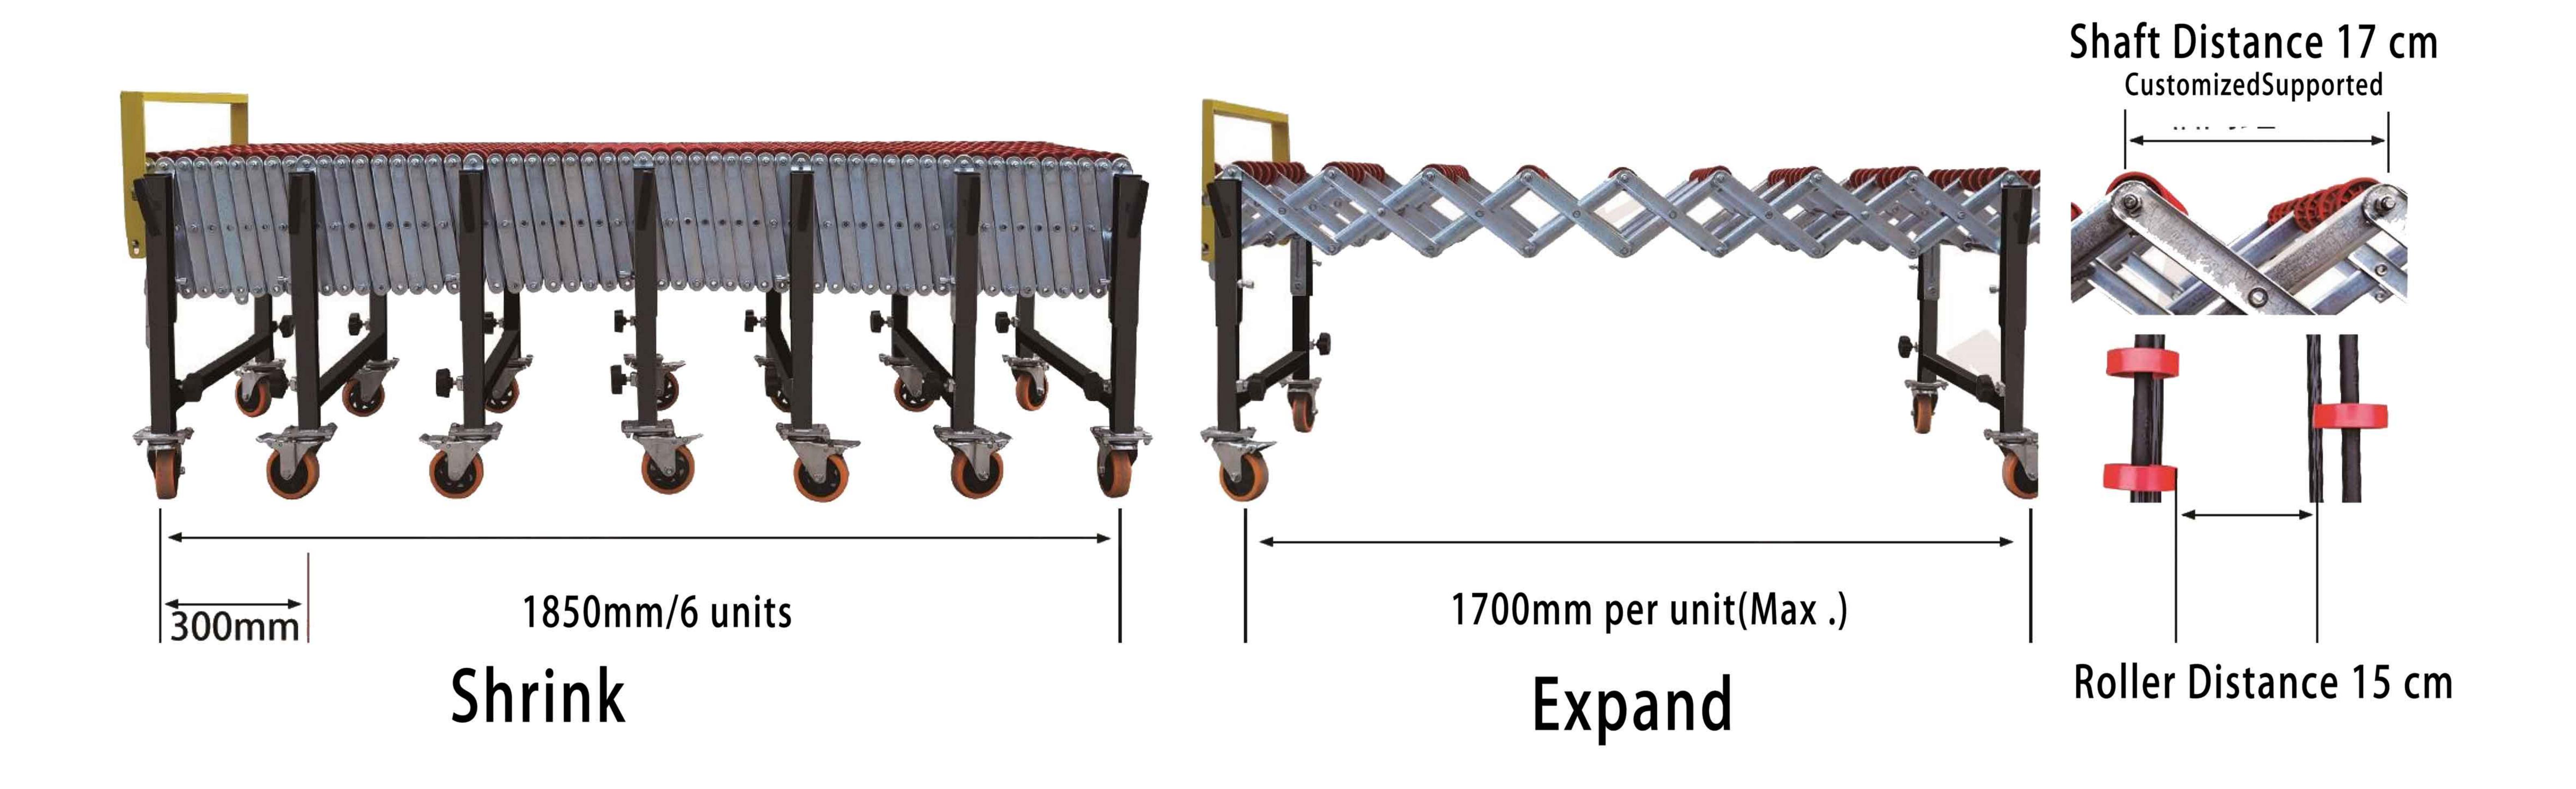

Applicable scene: Cartons or goods with flat bottoms.

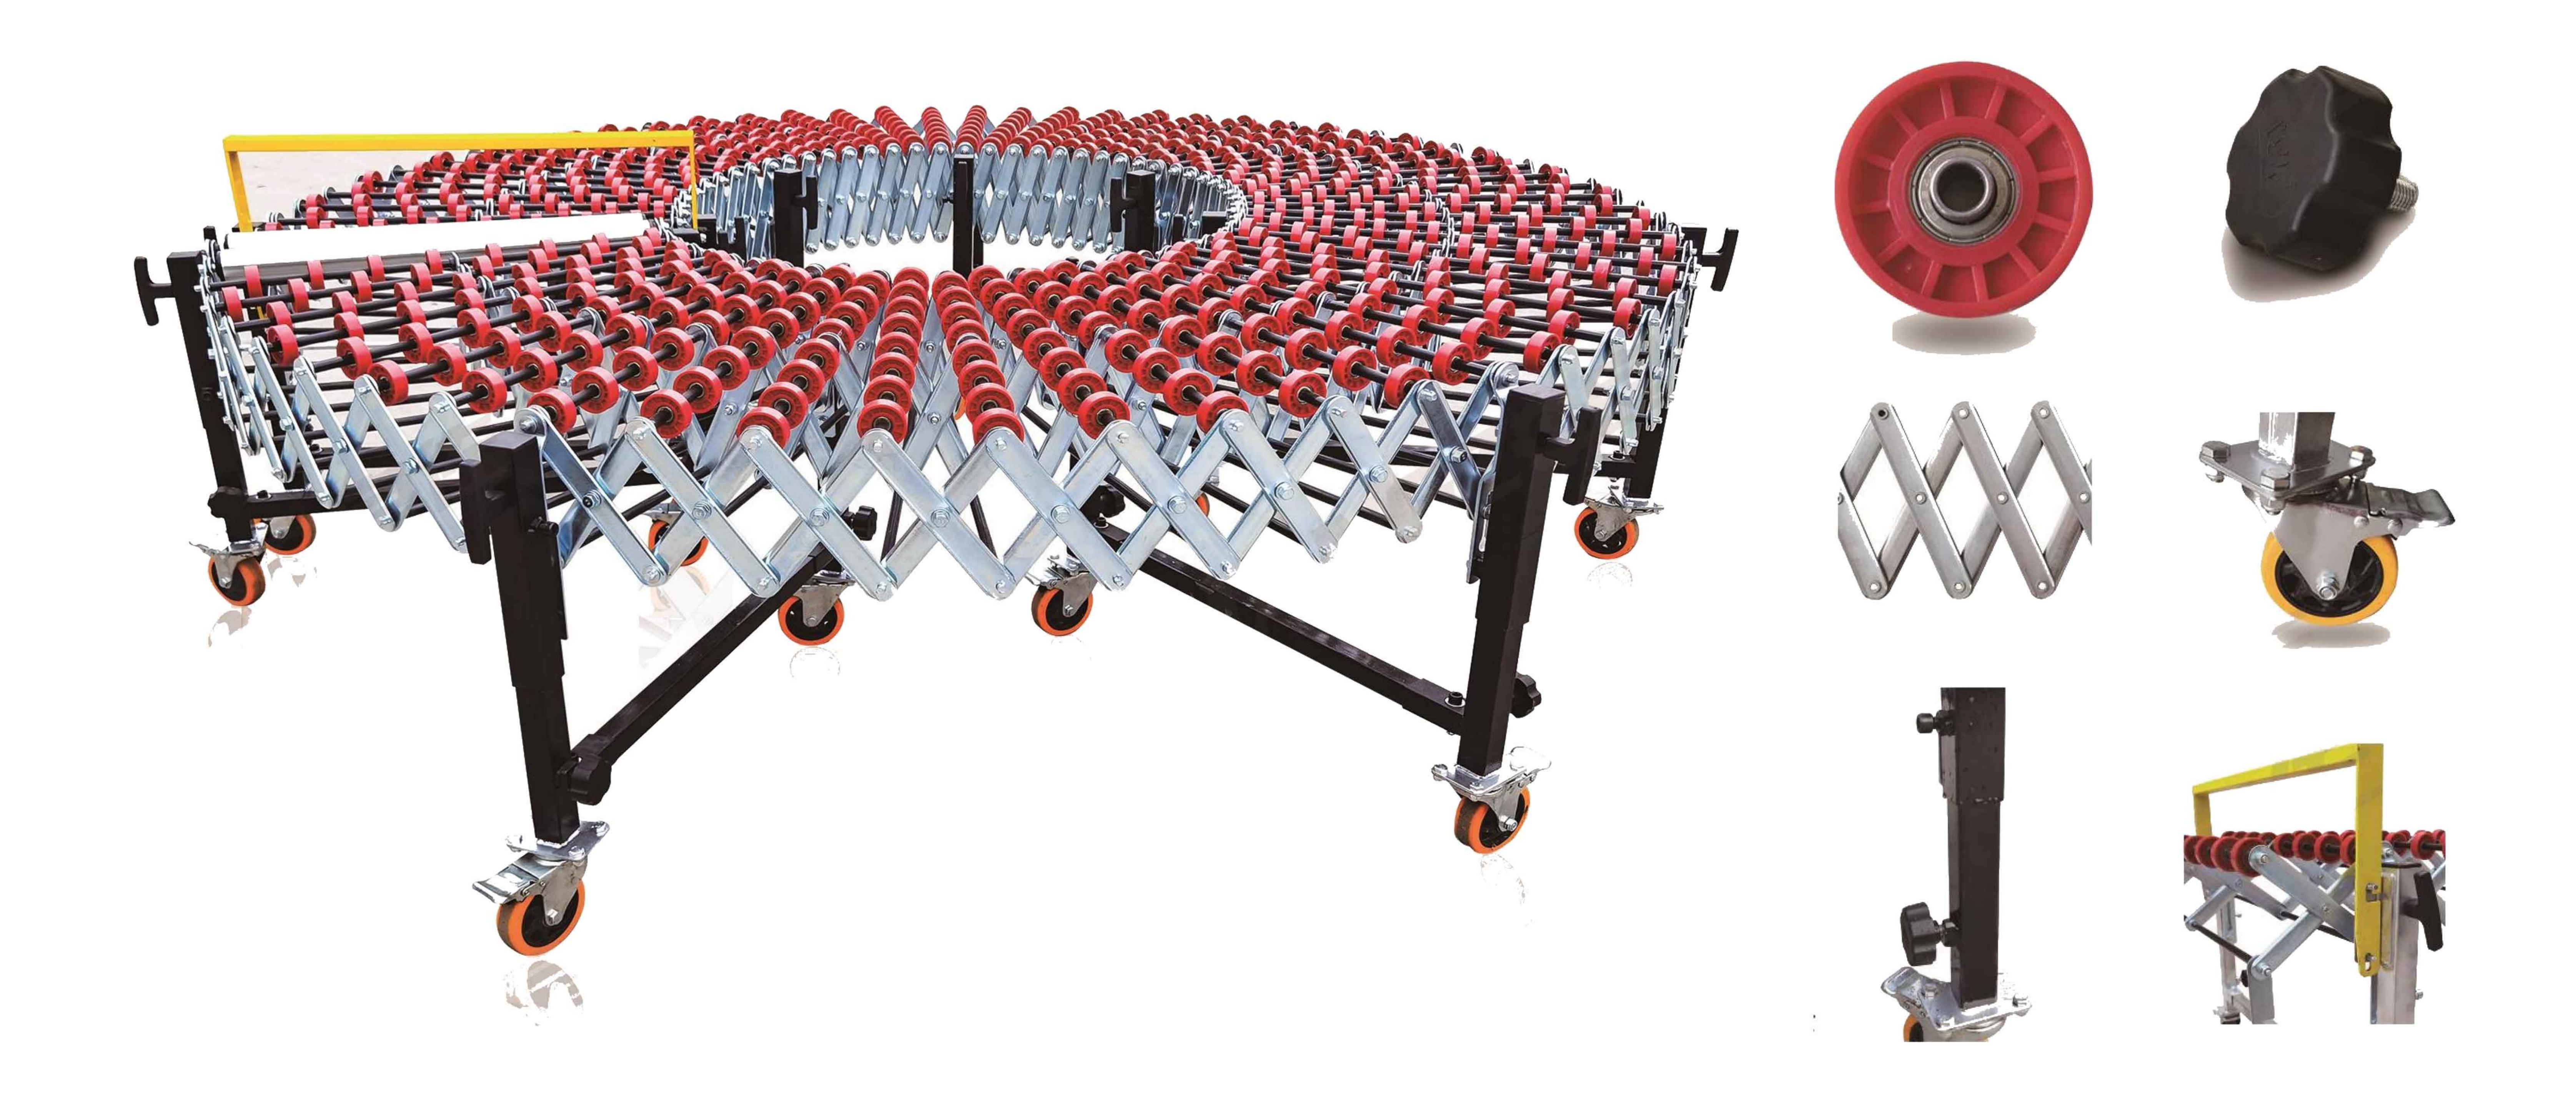

Skate wheel telescopic Conveyor 福来轮伸缩输送机

Detail size:

Example: 10 Meters Conveyor

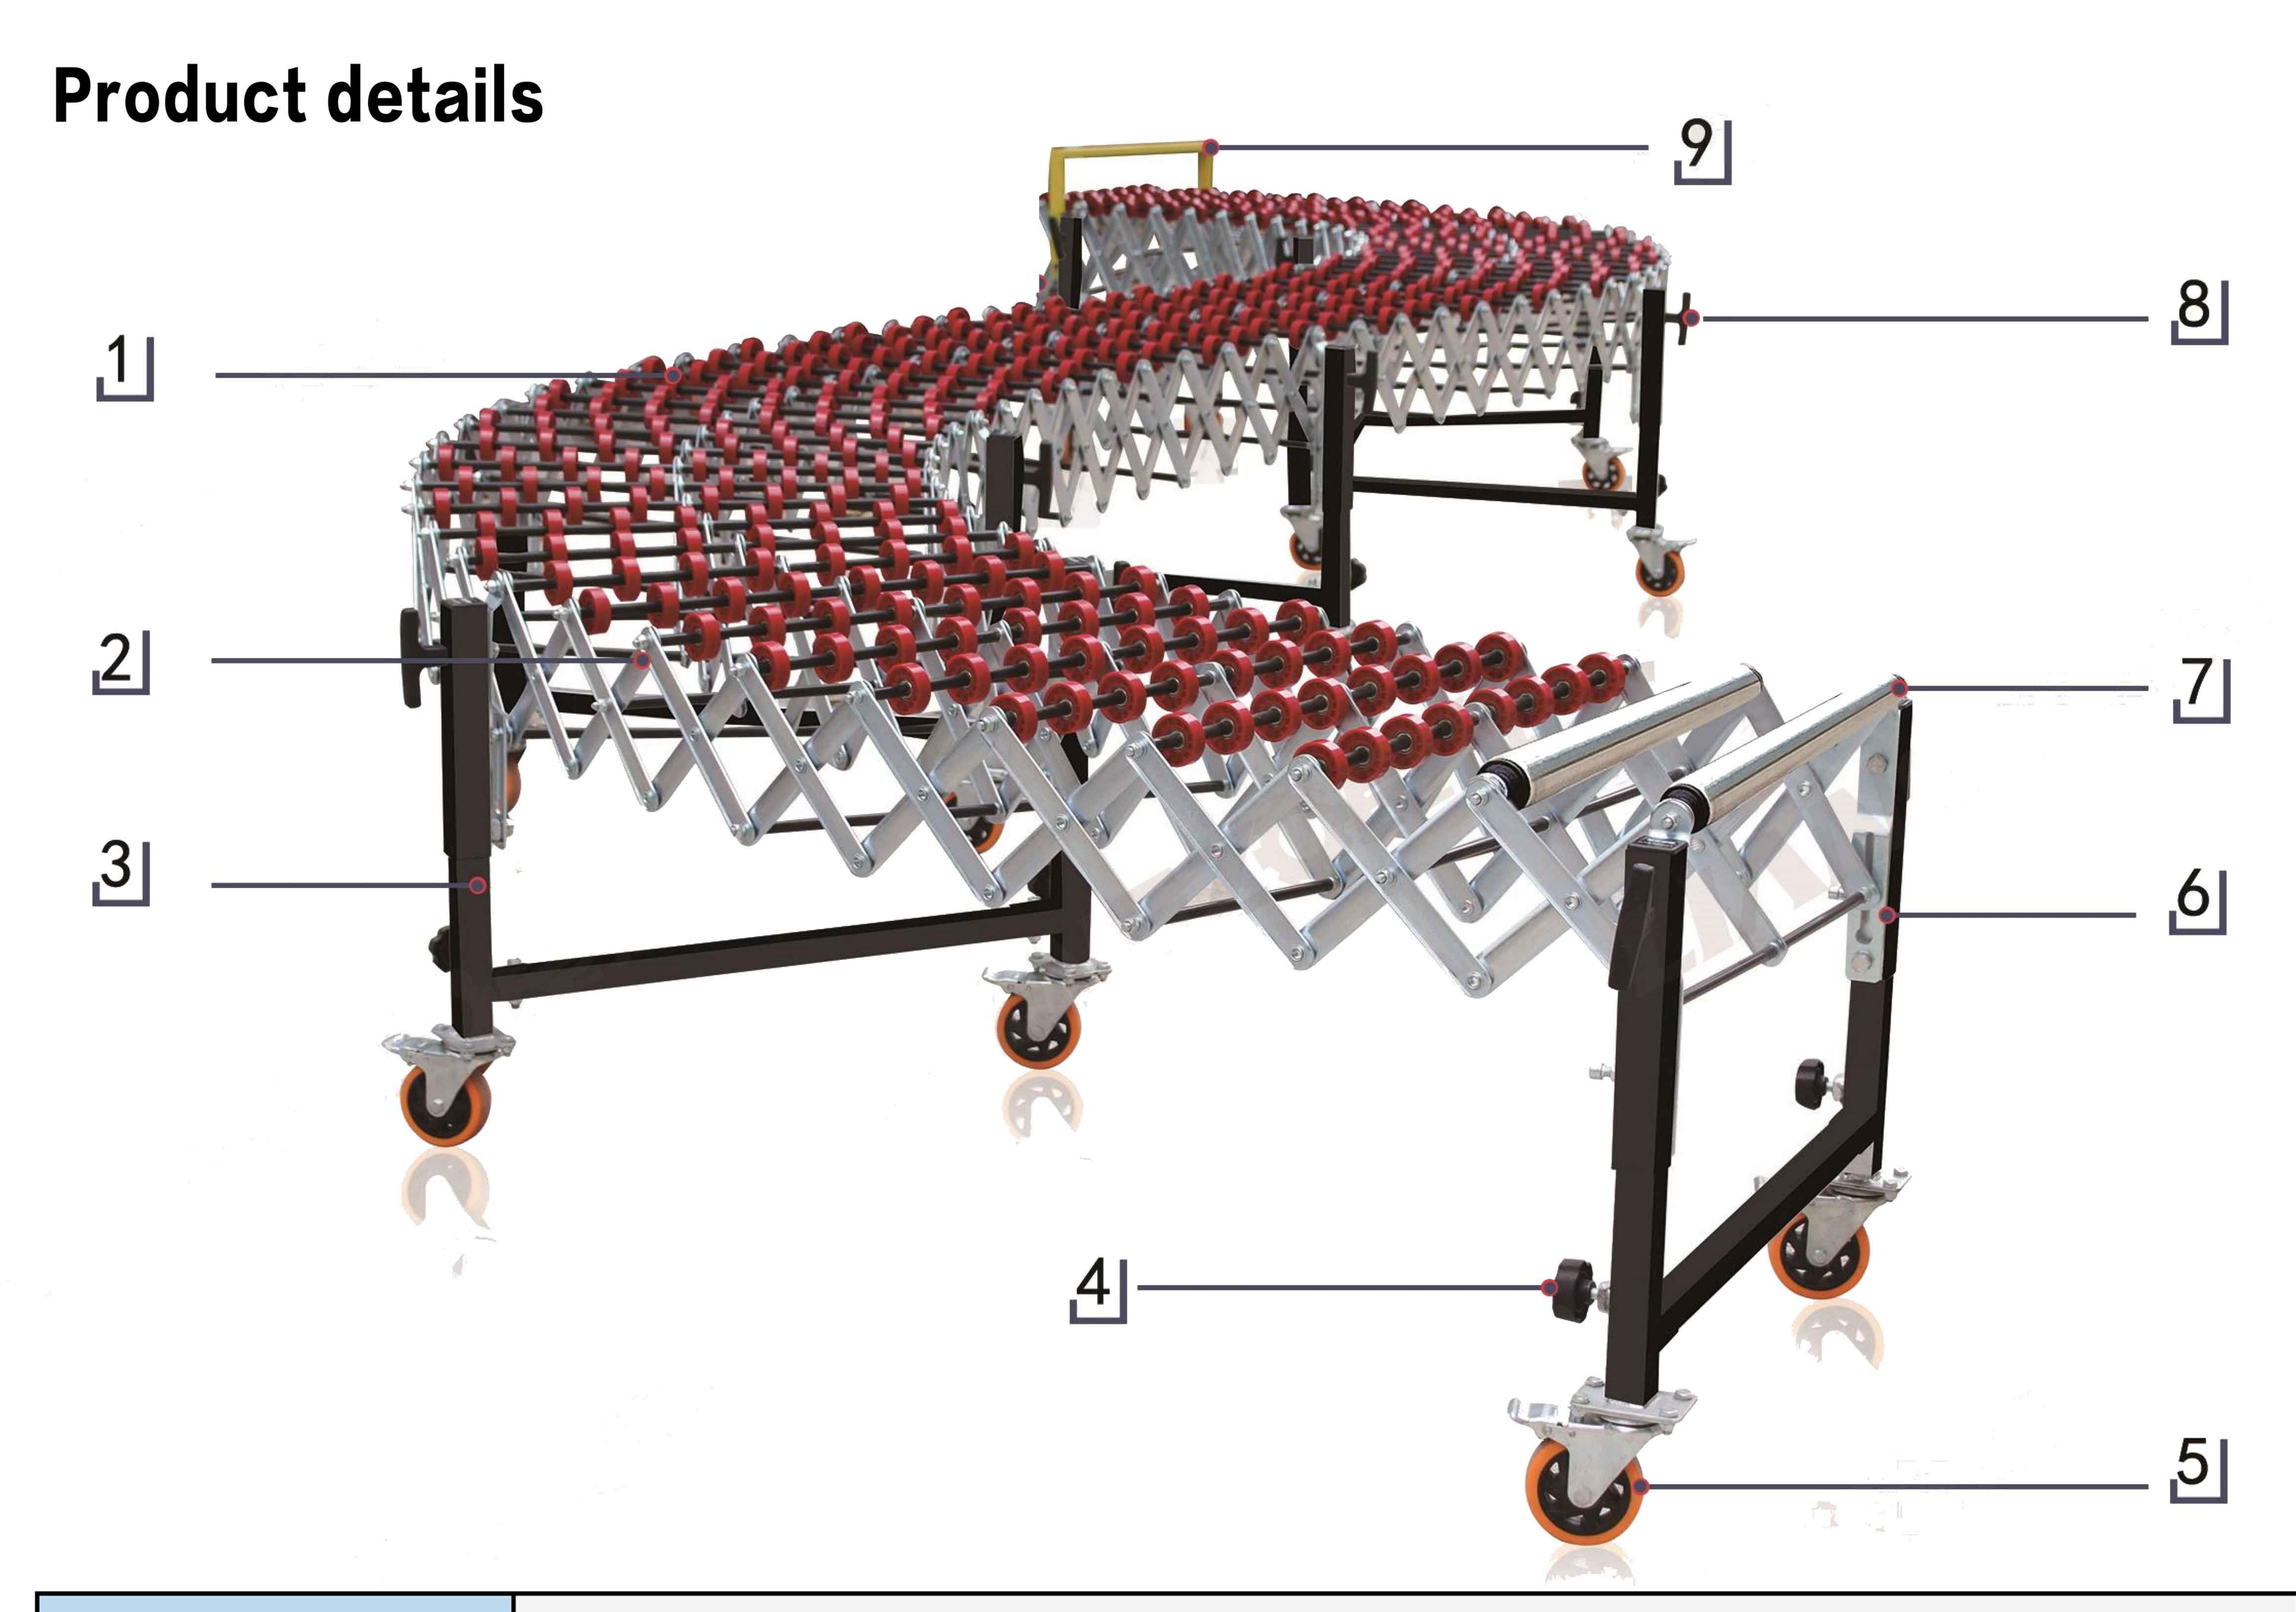

Advantage:Flexible scaling, 360° can be achieved. Using high-quality parts, safety and reliable.

Skate wheel telescopic Conveyor 福来轮伸缩输送机

01/Skate Wheel	Imported bearings/ABS rubber, sandproof, silent, smooth (can be customized).
02/Cross arm	Thk. 2.5mm steel plate stamped cross arms, strong load-bearing capacity.
03/Support legs	Wall Thk. 1.5mm, carbon steel sprayed, 35mmx35mm, strong and durable.
04/Plum nut	Ergonomically designed for easy height adjustment.
05/Casters	4-inch swivel casters, convenient and flexible.
06/Adjusting plate	Set inside the legs, safe, practical and adjustable.
07/Anti-smash roller	Protect the conveyor from falling goods.
08/Arrest	Conveniently adjust telescopic length.
09/Baffle	Removable Baffle.Effectively prevents goods from falling and being damaged.

Skate wheel telescopic Conveyor 福来轮伸缩输送机

Product name:	Skate wheel telescopic Conveyor
Width:	500mm/600mm/800mm/1000mm
High:	650-900mm/800mm-1200mm/1000mm-1600mm(Customized supprorted)
Shrinkage range:	300mm-1700mm(one unit)
Carrying capacity:	60kg/m
Frame material:	Galvanized steel/Stainless steel/ABS rubber
Anti-smash roller:	Ø50*1.5mm.length depends on frame.
Support feet:	35*35mm, Thk.1.5mm Carbon steel sprayed.
Skate Wheel:	High-quality ABS rubber roller, silent, sandproof and durable
Casters:	4 inchs,universal movable
Main function:	By utilizing the inertia of the height difference to transport and unload cargo, convenient and efficient.
